

PUBLIC NOTICE

The Tennessee Division of Air Pollution Control (TDAPC) has received a request for the construction of air contaminant sources as noted below. The proposed construction is subject to part 1200-3-9-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mr. Barry R. Stephens, Director, Division of Air Pollution Control, 9th Floor, L & C Annex, 401 Church Street, Nashville, Tennessee 37243-1531 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 12th Floor, 401 Church Street, Nashville, TN 37243, 1-866-253-5827. Hearing impaired callers may use the Tennessee Relay Service, 1-(800)-848-0298.

The applicant is IMPACT Services, Inc. with a mailing address of P.O. Box 4849, Oak Ridge, TN 37831. They seek to obtain an air contaminant permit (Division identification number: 73-0183-01/961769 for the construction of Four Pyrolytic-Destructors at ETTP Bldg. K-1310-MP, Perimeter Road, off Highway 58 and Burchfield Road, Oak Ridge, Tennessee 37830. This proposed operation would consist of Four Pyrolytic-Destructors units to treat low-level radioactive waste. An oxidation chamber equipped with a 1 MM Btu/hr propane burner, connected via a common header to an emissions control system consisting of an aqueous quench, packed bed caustic scrubber, activated carbon column, and HEPA filter would be used for pollution control. Liquid propane would be used for fuel. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. Malcolm Butler is the assigned Division person.

No alterations to the above are allowed:

IMPACT Services, Inc. must pay to place this advertisement in the newspaper.

Air Pollution Control must be furnished with one complete sheet from the newspaper showing this advertisement, the name of the newspaper and the date of publication.

Mail to Mr. Malcolm Butler, Division of Air Pollution Control, 9th Floor, L & C Annex, 401 Church Street, Nashville, Tennessee 37243-1531
